

POL.Q.001	 University of Mohamed Boudiaf - M'sila	 جامعة محمد بوضياف - المسيلة Université Mohamed Boudiaf - M'sila
Revision: 01		
2026/02/17		
<h2>Quality Policy</h2>		

Mohamed Boudiaf University in M'sila, as a leading scientific and knowledge center comprising 7 faculties and 2 institutes, seeks to consolidate a culture of quality as a strategic choice and a primary engine for continuous improvement in accordance with the requirements of international quality standards **ISO 9001:2015**.

Recognizing the magnitude of its undertaken responsibility in forming human capital and contributing to national development, the University declares its firm commitment to ensuring excellence in all its pedagogical, research, and societal missions.

This document defines the guidelines and commitments of the University's senior leadership, represented by its Rector and advisory bodies, to achieve the vision of a modern, innovative university open to its surroundings.

Commitments

To achieve this vision, the Rector of Mohamed Boudiaf University - M'sila, **Professor Amar BOUDELLA**, and the entire university community commit to the following:

1. Compliance and Good Governance:

- Full adherence to the legal and regulatory requirements governing the higher education and scientific research sector.
- Ensuring transparency in management and reinforcing university professional ethics in all administrative and pedagogical transactions.

2. Excellence in Training and Student-Centricity:

- Placing the student at the core of the educational process by updating training offers in Bachelor (Licence), Master, and Doctorate cycles to align with labor market requirements and global quality standards.
- Promoting digital transformation in pedagogy and administration, based on the digitization strategy adopted by the University, to empower students with 21st-century skills.

3. Scientific Research, Innovation, and Entrepreneurship:

- Directing scientific research towards solving real-world problems and encouraging publication in globally indexed journals to raise the University's visibility.
- Supporting innovation and entrepreneurship by activating the role of the Business Incubator and the University Entrepreneurship Development Center, and accompanying students with projects and Startups to create wealth and job opportunities.

4. Openness and Socio-Economic Partnership:

- Building permanent bridges of communication with economic and social partners through effective cooperation agreements that guarantee quality internships for students, facilitate professional integration for graduates, and implement joint research programs and technical studies.
- Valorizing scientific research outputs and technology transfer to contribute to the local development of the province of M'sila and the nation in general.

5. Human Resources Development:

- Investing in the human element through continuous training programs for professors, administrative staff, and technical staff to raise their competencies and keep pace with modern technological and administrative advancements.

6. Stimulating and Sustainable University Environment:

- Providing an appropriate, safe work and study environment that stimulates creativity, while caring for student life and scientific, cultural, and sports activities.
- Commitment to societal and environmental responsibility within the university campus.

Our Promise

Mohamed Boudiaf University of M'sila pledges to serve as a driver for development and to prepare highly qualified professionals capable of addressing present and future challenges, thereby contributing to the building of a new Algeria founded on science, knowledge, and an innovative economy.

This commitment is communicated to all bodies of the University and is reviewed periodically to ensure its continued suitability.
